

Streamline your school. Connect your community. Empower excellence.

We know that to prepare the leaders of tomorrow, you need leading technology today. That's why our Educate student information system (SIS) is designed to meet the unique needs and budgets of small and mid-sized private and independent schools. With Educate you get all the tools you need to connect your school and families, with complete day-to-day functionality for your students, families, faculty, and staff.

Save time

Modern online tools allow faculty and staff to manage student data, take attendance, report grades, and monitor cafeteria sales—eliminating manual tasks and hours of staff time.

Create connections and visibility

Provide families the experience they expect, and deserve, with online Parent and Student Portals for viewing communications, tracking grades, and updating contact information.

Get up and running fast

Our proven implementation approach gets your whole system up and running with best practices while ensuring your school's unique needs are met...all in about five weeks.

Maximize your budget

Get all the tools and support you need to streamline processes and connect your community—without breaking the bank.

Streamline data entry

Easily integrate with TADS Admission and Enrollment to ensure student and family data is entered correctly, the first time.

Features

Communications center

Send and track important communications to families through their preferred method (voicemail, email, SMS); all with our built-in communications tools.

Parent portal

Give families a responsive web application that allows them to access grades, view communications, and easily update contact information—without installing and updating any software.

Robust reporting

See the data you want, how you want it, when you want it. A robust and flexible report writer allows you to generate, filter, schedule, and send the reports you need and share them with those who need to see them.

Transparent gradebook

Gain control and visibility into grading across your campus with flexible grading options that support both letter and standards/skills-based grades as well as customizable grading scales.

Accurate attendance

Save time and paperwork with multiple options for attendance taking. Plus, streamline cafeteria operations by allowing students to pre-order meals during attendance.

Payments

Simplify purchases with an integrated payment system that allows students to pay for things like cafeteria and school store items through an easy-to-manage debit account.

Proven approach

Get up and running quickly with our five-week implementation approach so you can focus your time and energy where it matters most—your mission.

Integration and data quality

Leverage the best-in-class solutions you're already using and reduce valuable staff time through our integrations with TADS Admission and Enrollment, Ravenna, Google Classroom, asc Timetables, and USA Scheduler.
